## OnForm Gazebo advantages

- All Gazebo frames are RUST FREE as they are made using marine quality, anodised aluminium for maximum durability.
- Available in 3m x 3m or 6m x 3m sizes.
- 5 standard colours available and unlimited printed colours.
- Up to 5 years warranty cover on the frame and components.
- Heavy Duty frames available where maximum strength and durability is required.
- 'One piece' frame design so no small parts to get lost.
- Affordable logo printing and branding available.
- Easily set up or collapsed within 60 seconds.
- 'Easy-on' Velcro walls available.
- Premium 600 denier polyester used for roof and walls.

## Branding and printing options

Turn your OnForm Gazebo into the ultimate marketing and advertising tool by having your own branding or logo printed on your marquee! Digital printing is available to polyester canopies and walls. This allows for all-over coverage, custom colours, and photo quality graphics. You supply us with your requirements and logos and our designers will prepare a layout that will really get attention and maximise your brand exposure.

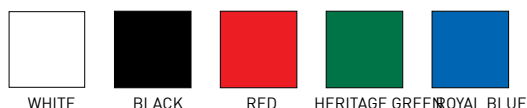

## Gazebo roof qualities and options

All OnForm Gazebos use the same premium quality 600 denier polyester materials for the roof and walls which makes them among the best quality Gazebos available.

Key benefits include:

- Fire retardant • Highly water resistant
- Double polyurethane coating • High UV protection rated UPF 50+ • Excellent fabric for printing • 1 year warranty on plain or printed polyester roofs and walls

Polyester Colour Range

## Perfectly designed to meet your every need

### Commercial Aluminium Gazebo

Our multi-purpose Commercial Aluminium Gazebo is perfect for everyday rough and tough use. Light enough to be easily moved around and transported; yet strong enough to handle tough commercial or sports environments.

Available in both 3m x 3m and 6m x 3m sizes.

### Heavy Duty Aluminium Gazebo

Built to withstand use in nearly any environment. All aluminium arms and crossbars are substantially strengthened and all joints and brackets upgraded to moulded aluminium. This means the gazebo is not reliant on any plastic parts!

Ideal for catering, multi-day events, at beaches, or in exposed areas - this Gazebo is designed for when you need weather protection that won't let you down.

Available in both 3m x 3m and 6m x 3m sizes.

Our Most Popular Gazebo!

Reinforced Aluminium Crossbars

Hardened Aluminium Feet

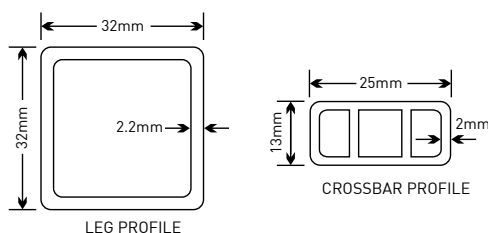

Easy Push-Up Buttons

Stainless Steel Bolts

## Commercial Aluminium Gazebo
